SUMMARY

A passionate web developer with experience in recruiting and recent completion of the Front-End Web Development Boot Camp at EdX Birmingham University. Committed to crafting user-centric websites and applications that drive engagement and satisfaction.

WORK EXPERIENCE

Recruiting Coordinator, BigCommerce

Jan 2023 - June 2023

- Managed daily review of ATS (Green House) for interview requests, scheduling, and maintaining communication throughout the interview process.

Internal Recruiter, The Adecco Group

Oct 2022 - Dec 2022

- Identified staffing needs, developed recruitment strategies, and collaborated with teams to create job descriptions and innovative advertising approaches.
- Previous experience with The Adecco Group in recruiting and administrative roles.

Recruiting Coordinator, The Adecco Group

June 2021 - Sep 2022

- Scheduling interviews and phone screens, liaising with both candidates and hiring managers, and arranging travel for visiting candidates, where necessary.
- Updating candidate records and job postings in the recruiting system and confirming new hires.

Help Desk Administrator, The Adecco Group

Feb 2021 - May 2021

- The primary point of contact for candidate and worker communications, meticulously recorded interactions for documentation.
-

PROJECTS

Personal Web Portfolio

React JS, Tailwind, Vite JS [GitHub](#) [App](#)

- This project showcases my proficiency in both front-end and backend development. It offers opportunities to present solo or collaborative projects, illustrating a diverse skill set. It serves as a comprehensive demonstration of my varied development skills

Mayfly Oasis, Art Galery Project

React JS, Tailwind, Vite JS [GitHub](#) [App](#)

- The project opens doors for artists to create their unique havens, where they can effortlessly manage their art, exhibitions, and sales. It's a space tailored to their needs, offering a platform where their creativity can shine.
- I contributed to the project by creating a register and login credentials by authentication.

ReadMe Generator

Node JS, Javascript [GitHub](#) [App](#)

- The readme. md file generator is a user friendly guide to generating easily professional documents for GitHub. The project has clear instructions for setup, usage, contributions, and other required and optional sections for a professional-looking readme file. It is designed to ensure everyone can easily understand and use project functionalities.
-
